

## DISPLAY/OPTIC HALOGEN PRODUCT MODIFICATION

March 2007

### G9.5 Base Stage and Studio Lamps:

**EHC/EHB, EHD, EHF, EHG, FEL, FEP, FLK, FLK+HPR, FLK/X, FRN,  
GLA, GLC, GLD, GLE**

⇒ **TOP Feature: Design change of the G9.5 base to aluminum instead of ceramic**

### Summary:

Change to metal base in response to customer feedback, and to provide uniformity of product to both our RTP and STTV customers.

### New Aluminum Base:

- Provides better fit in older TP220 and some TP22 sockets
- Base will now be the same as the one used in Rapid Thermal Processing (RTP) lamps where higher heat tolerances are needed.
- Metal base offers less friction for easier seating in all sockets.

Ordering Abbreviation	Product Number
EHC/EHB	54506
EHD	54508
EHF	54510
EHG	54512
FEL	54570
FEP/240	54515
FLK	54589

Ordering Abbreviation	Product Number
FLK PLUS HRP 575/115	54549
FLK/X 115V	54551
FRN 2000T7Q	54588
GLA 575/115/2000	54516
GLC/575/115/300	54507
GLD/705/115/300	54522
GLE/750/115/1500	54523

### □ Applications

- Stage, Studio, & Television fixtures using the TP22 and TP220 Socket

### □ Technical data

- Geometrical data and lamp performance remain unchanged. Therefore technical data sheets are still valid.
- Packaging remains unchanged.
- Material change only. Product ordering #s will remain the same.
- Please inform your customers. If sample lamps are required, please contact Mark DeLorenzo
