

227SMDTL/G

PRODUCT FEATURES:

- 16.4' length light strip per spool.
- Each roll is packed on a plastic spool inside a moisture and electrostatic zip lock bag.
- 3M self adhesive backing.
- Each roll consists of 5 pieces of 3' flexible light strips joined together with a 4 pin quick connector, choose the length you need.
- Cuttable in 2" intervals.
- 10mm wide by 4mm tall.
- Dimmable light strip.
- IP65 waterproof.
- Extremely low power consumption.
- 12 Volt, 72 Watt, 54mA per foot.
- Luminous flux: 3-3.4Lm per 3 LEDs.
- Requires a 12 Volt power supply and a power cord, see our [227FL-PWR](#) or [227LEDTL-PWR1](#) and also [227LEDTL-PCORD](#).
- RGB requires a 12 Volt RGB controller with remote, see our [227LEDTL-CTL](#).

Key Features:

- **16.4 Foot LED Strip:** Ideal length for versatile applications.
- **Flexible and Cuttable:** Bend and shape to fit any surface or design.
- **Energy-Efficient Illumination:** Brilliant lighting with low power consumption.
- **Weather-Resistant Construction:** Suitable for indoor and outdoor use.
- **Self-Adhesive Backing:** Easy installation with no tools required.
- **Durable and Long-Lasting:** Engineered for multi-season reliability.
- **Perfect for All Displays:** Ideal for under-cabinet lighting, backlighting, and decor.
