CDL 8" 24W COMMERCIAL DOWNLIGHT

SPECIFICATION FEATURES

- **Mechanical** - The CDL commercial downlight with external driver junction box retrofits existing commercial housings and is field accessible from below the ceiling. Three stainless steel friction clips allow for easy installation of aluminum reflector.
- **Electrical** - Universal 120-277V, 50/60Hz flicker free driver in external driver junction box dims to 5% using electrically isolated 0-10V circuit. Metal clad cable with quick connect wire harness for easy wiring installation.
- **Optical** - Self flanged spun aluminum reflector with white painted trim flange. High resistance polycarbonate optical lens, with smooth diffusion. 90° beam angle. LED emitters binned to 4 step SDCM and available 3000K, 3500K, and 4000K CCT. Minimum 80 CRI.
- **Thermal** - Die cast heat sink maximizes passive thermal management and achieves a L70 rated lifetime of 50,000 hours. Fixture Operating Temperature: -13°F to 95°F (-25°C to 35°C).
- **Compliance and Warranty** - cULus Classified for damp locations. For use under covered ceilings where not directly exposed to weather or water. 5 year parts warranty for complete fixture.

033021

BENEFITS

- Quick and easy installation - quick connectors and pre-wired conduit
- Fits existing architectural and commercial housing
- Universal 120-277V, 0-10V isolated dimmable driver
- Available in 3000K, 3500K & 4000K CCT

APPLICATIONS

- Commercial
- Architectural
- Retail
- Hospitality
- Educational

INSTALLATION

Fig.1

Stainless steel friction clips supplied with fixture.

Fig.2

Attach safety clip to existing fixture or ceiling structure above.

Fig.3

Slide the stainless steel friction clips onto the existing circular fixture collar, with the prongs of the clip facing the center of the fixture.

Fig.4

Insert the fixture into the housing, engaging the friction clips, until the fixture trim is flush with the ceiling.
