23-Watt Spiral-Lite Covered CFL PAR38 MED Flood 2700K

SPIRAL-LITE™ Covered

Markets

- Restaurants
- Hospitality
- Casino
- Cinema

Applications

- Recessed Cans

Product Description

Spiral-Lite Covered CFLs come in a variety of familiar shapes to combine the energy savings of a compact fluorescent with the attractive look and feel of an incandescent light bulb. These energy savings lower utility bills and reduce greenhouse gas emissions for a cleaner environment.

This 23-watt PAR38 Spiral-Lite Covered CFL can replace 120-watt incandescent PAR38 light bulb in a variety of applications, such as recessed cans and track lighting. It has a warm 2700K color temperature that is similar to incandescent light and a long 8,000-hour life that reduces replacement and maintenance costs.
