PRODUCT DESCRIPTION

Low Voltage electronic transformer designed to be used as a replacement part for factory installed transformers or installed in a properly listed enclosure.

FEATURES

- 1W minimum load
- All connections must be made in an enclosure for proper installations
- Dimmable with electronic low voltage dimmers. Dimmers should always be installed on the primary side of the transformer.

SPECIFICATIONS

Construction: Built-in auto reset, soft start, short and overload circuit protection features. The soft start delayed start feature extends lamp life by delaying the abrupt inrush current to the lamp.

Output: 12V

Frequency: 20khz

Details: In the case of a system overload or short circuit the transformer will revert to a "hold" position and then automatically reset the system when the problem is solved. System protection is designed to last several hours.

Standards: UL recognized component part.
