

- Easy-to-install Emergency Backup solution for T8 fixtures
- 1900-2000 lumen output under normal conditions
- 500 lumen output for 90 minutes when in Emergency Backup mode
- Direct wire installation on 120-277 VAC line voltage
- Meets UL 924 when permanently installed
- Frosted glass allows for uniform illumination and softer light output
- Non-dimmable
- Suitable for use in dry or damp locations. Not for use in vapor tight fixtures
