The Hybrid LED light bulbs are available in a variety of glass shapes including a globe, ball, torpedo, mini reflector, and more, so you can use them anywhere you use a regular incandescent bulb. These LED light bulbs feature technology that lets them last more than 10 times longer than incandescent bulbs. They also stay cool to the touch. Our hybrid LED bulbs are dimmable* and give off just the right amount of light and at the right temperature. *Contact us for a list of compatible dimmers.
