

42777-1WA

Surface-Mount Back Box, Single Gang, 1.89" Box Depth, White

Single and dual-gang back boxes are used for surface-mount installation of low-voltage connectivity in hard-wall or open-office environments. They are compatible with all Leviton QuickPort and MOS flush-mount wallplates, and accommodate various raceway types. They are available in two depths (1.45 and 1.89 inches) and in four colors (white, ivory, gray, and black).

Technical Information

Product Features

Type : Surface Mount Back Boxes

Color : White

Features and Benefits

- Back boxes have tie-wrap anchors at each inside raceway entry point
- Dual-gang back box has four fiber storage tie-wrap anchors located on base surface
- Screws and tape provided for mounting; optional magnet retention (41030-SMJ)
- Compatible with all Leviton multimedia wallplates, including QuickPort wallplates
- Two-piece construction
- Designed with rear and side cable access breakouts
- Larger breakouts in single-gang bases accommodate a larger cable bend radius
- Available in four colors (white, ivory, gray, and black)
- Single-gang base can be mounted over an existing single-gang handy box or low voltage bracket.
- Dual-gang base can be mounted over a single-gang or a dual-gang box with appropriate single-gang or dual-gang reducer

UPC Code : 078477963593
