- Hospitality
- Retail
- Casino
- Cinema

**Applications**

- Parking Lots
- Airports
- Residential Roadways
- Gas Stations Canopy

**Product Description**

Super Arc High Pressure Sodium light bulbs are an economical choice for efficient light output. They cast a golden white light that is great for illuminating streets and parking lots, and their 24,000-hour life keeps maintenance and replacement costs to a minimum. Be sure to pair your HID light bulbs with ITS compatible ANSI ballast. Ballasts are specifically designed for each wattage and type of HID light bulb, so using an HID light bulb with the incorrect ballast could reduce light bulb performance or pose a safety risk.

This 400-watt ED18 Super Arc High Pressure Sodium light bulb provides 50,000 lumens. Be sure to use with ANSI ballast S51.

### Specifications

Category	HID
Shape	ED18
Brand	Super Arc High Pressure Sodium
Part Number	L-4133
Watts	400
Base	MOG
Average Rated Life	24,000
Case Quantity	24
Initial Lumens	50000
Mean Lumens	42500
CRI	22
Color Temp	2100K
Finish	Clear
ANSI Code	S51
Open Rated	No
Burn Position	Universal
M.O.L.	9.68"
Warranty	2 years
