## 15-Watt Micro-Brite Cold Cathode Post Light MED Clear 2700K

Litetronics.com

### MICRO-BRITE™

#### Markets

- Restaurants
- Hospitality
- Cinema

#### Applications

- Dimmable Fixtures
- General Lighting

#### Product Description

Micro-Brite cold cathode light bulbs are dimmable down to 5% of their light output. They provide smooth dimming control that works just like incandescent on standard dimmers, so no additional equipment is necessary. They also have a super long 18,000-hour life that drastically reduces maintenance and replacement costs.

This 15-watt Micro-Brite light bulb is the highest wattage dimmable cold cathode bulb available on the market. It produces 750 lumens to replace a 60-watt incandescent bulb. It has a warm white 2700K color temperature and a medium base for direct replacement of incandescent bulbs.

### Specifications

Category	Cold Cathode
Shape	Post Light
Brand	Micro-Brite
Part Number	MB-15527D
Watts	15
Base	MED
Voltage	120
Average Rated Life	18,000
Case Quantity	15
Initial Lumens	750
CRI	82
Color Temp	2700K
Finish	Clear
Burn Position	Universal
M.O.L.	5.04"
M.O.D.	2.28"
Operating Temp	5°F - 105°F
Power Factor	>.90
THD %	<30%
Incandescent Equivalent	60 watts
Energy Savings (Incandescent)	\$89
