Applications

- General Lighting
- Table and Floor Lamps
- Perimeter Lighting
- Dimmable Fixtures

Product Description

Micro-Brite cold cathode light bulbs are dimmable down to 5% of their light output. They provide smooth dimming control that works just like incandescent on standard dimmers, so no additional equipment is necessary. They can also be used in flashing signs without shortening their super long 25,000-hour life.

This 5-watt A19 Micro-Brite light bulb has a white finish and can replace a 30-watt A19 incandescent bulb to provide up to 85% energy savings. It has a cool white 4100K color temperature.
