8-Watt Micro-Brite Cold Cathode A19 MED LO Clear 2250K

MICRO-BRITE™

Markets

- Restaurants
- Hospitality
- Cinema
- Agriculture

Applications

- Dimmable Fixtures
- General Lighting

Product Description

Micro-Brite cold cathode light bulbs are dimmable down to 5% of their light output. They provide smooth dimming control that works just like incandescent on standard dimmers, so no additional equipment is necessary. They also have a super long 18,000-hour life that drastically reduces maintenance and replacement costs.

This 8-watt A19 Micro-Brite light bulb has a clear finish and can replace a 45-watt A19 incandescent bulb to provide up to 85% energy savings. It has a rosy 2250K color temperature that simulates the look of a dimmed incandescent lamp that is perfect for restaurants and cinemas.

Specifications

Category	Cold Cathode
Shape	A19
Brand	Micro-Brite
Part Number	MB-800DL
Watts	8
Base	MED LO
Voltage	120
Average Rated Life	18,000
Case Quantity	15
Initial Lumens	325
CRI	82
Color Temp	2250K
Finish	Clear
Burn Position	Universal
M.O.L.	4.88"
Operating Temp	5°F - 105°F
Power Factor	> .90
THD %	<30%
Incandescent Equivalent	45 watts
Energy Savings (Incandescent)	\$73
