◀ GU10 Base

MR11 & MR16 GU10

Technical Data

- GU10 base
- 20, 35 and 50 watts
- 120 volt
- Aluminized reflector does not deteriorate, ensuring consistent color throughout lamp life
- Protective glass lens
- Integrated UV protection
- High lumen maintenance, greater than 90% throughout lamp life

Benefits

- No color shift
- Greatly reduces fading by UV exposure
- Safe for operation in open fixtures

Applications

- General and decorative lighting
- Accent lighting
- Display lighting

GU10 base ensures safe line voltage operation.
