Norman Lamps, Inc.

Norman Lamps continues to stock one of the largest Halogen PAR lamp inventories in the United States of both major and import brands. This inventory, combined with state-of-the-art order processing, enables us to ship your orders complete and without delay. Halogen PAR lamps combine high lumen output levels, long lifespan, incredible color rendering, and soft beam spread. We stock major brands as well as premium imports. While major brand producers continue to delist critical lamps at an increasing pace, NLI steps up production and keeps your supply chain flowing.
