

LUNERA HID LED LAMP

LED Replacement for High Intensity Discharge Lamps

[9,000lm / 4,500lm]

E26 Medium-Base - Vertical Mount - Line Driven

Description

The LUNERA HID LED lamp is a Line Driven (ballast bypassed) LED replacement for Metal Halide (MH) and High Pressure Sodium (HPS) lamps with an E26 Medium base. This lamp replaces 250W ~ 70W of MH and HPS lamps in lighting applications such as High Bay, Low Bay and Parking Garages.

Lunera HID LED lamps feature a significantly lower energy consumption than conventional (High Intensity Discharge) HID lamps. These lamps deliver over 60% energy savings and has a rated life of 50,000 hours – 3 times longer than that of HID lamps. Its built-in universal driver allows lamp operation at 120V ~ 277V.

The Lunera HID LED lamp is available in a range of color temperatures including 3500K, 4000K and 5000K. Lamp configuration options include: vertical and vertical short neck. It delivers consistent light levels across its long life, which results in a high quality lighting experience for the building's occupants.

Features

- Replaces 250W ~ 70W Metal Halide (MH) and High Pressure Sodium (HPS) lamps
- Line Driven (ballast bypassed) lamp; supports 120V ~ 277V
- Works well in enclosed fixtures
- Up to 9,000 and 4,500 lumens fixture delivered light output
- Yields 60%-80% energy savings
- >80 CRI
- CCT 3500K, 4000K and 5000K
- Supports E26 medium base HID sockets
- Thermal IQ to support ambient temperatures up to 150°F

*Thermal IQ is a proprietary Lunera technology which enables the Susan Lamp to operate reliably up to 150°F ambient by dimming itself at extreme temperatures based upon thermal characteristics of the fixture in which it has been installed.

* Lamp dimming profiles subject to dimmer type and environmental condition. Contact Lunera for more detailed information.

Photometry

Optical data is based on performance of bare lamps.

Lens Type V Option

Intended Applications

The Lunera HID LED lamp is designed to replace Metal Halide (MH) and High Pressure Sodium (HPS) lamps in the following compatible applications:

Wattage Compatibilities	Sockets	Power Source	Mount
Lunera HID LED Medium (E26) Base  175W - 70W MH or HPS	E26 Medium 	120V- 277V Line Voltage 	Vertical Mount Fixture Type  Parking Garage  Low Bay

Application Notes

- The Lunera HID LED lamp can be used in open and fully enclosed fixtures.
- This device is NOT rated for use with dimmers.
- Contact Lunera for luminaire level IES files with high bay and low bay DLC referenced fixtures.
- This product is NOT intended for use with emergency lighting or for emergency lighting.

Caution

- Turn power off when installing this lamp.
- Do NOT install this lamp into line voltage above 277VAC.

Product Dimensions

Measurements are exact. Dimensions are shown in millimeters and inches. Please contact your Lunera representative for other product dimensions.

Standard Vertical Neck
E26 Lamp 9,000lm / 4,500lm

Sample Part Numbers:
SN-V-E26-L-4.5KLM-8XX-G3
SN-V-E26-L-9KLM-8XX-G3

XX: may be 35 (3500K), 40 (4000K), or 50 (5000K)

Vertical Short Neck
E26 Lamp 9,000lm / 4,500lm

Sample Part Numbers:
SN-VS-E26-L-4.5KLM-8XX-G3
SN-VS-E26-L-9KLM-8XX-G3

XX: may be 35 (3500K), 40 (4000K), or 50 (5000K)

CAUTION

Turn off power when installing the Lamp.
