

LUNERA SUSAN LAMP

LED Replacement for Metal Halide Lamp

[400W / 320W] or [250W / 175W] E39 Mogul Base, Vertical Mount

Description

The Susan Lamp is a plug-and-play replacement for Metal Halide (MH) lamps with an E39 mogul base. These lamps are available with an upright option for glass or acrylic fixtures. With a significantly lower energy consumption than conventional MH lamps, these LED lamps also replace 400W / 320W or 250W / 175W MH lamps.

Lunera's BallastLED technology makes these lamps truly plug-and-play by allowing them to operate directly off of existing ballasts. Simply replace the existing MH lamp with the Susan Lamp without making any modifications to the fixture.

The Susan Lamp has a rated life of 50,000 hours – 5 times longer than that of MH lamps. This eliminates costly replacement cycles and reduces maintenance costs.

The Susan Lamp is available in a range of color temperatures including 3500K, 4000K and 5000K. It delivers consistent light levels across its long life, which results in a high quality lighting experience for the building's occupants.

400W /
320W

250W /
175W

Features

- Replaces 400W / 320W or 250W / 175W metal halide (MH) lamps
- Uplight option to support glass/acrylic reflectors
- Plug and Play installation, with existing installed magnetic ballasts
- Works well in enclosed fixtures
- Ultra-low energy draw extends existing magnetic ballast life
- Up to 14,000 lumens fixture delivered light output
- 40W to 145W lamp power, yields 60%-80% energy savings
- >80 CRI
- CCT 3500, 4000 and 5000K
- Thermal IQ™ to support ambient temperatures up to 150°F
