

SYLVANIA Luminaires

Volumetric Troffer

Product Features

The Volumetric Troffers are environmentally preferable LED alternatives to traditional fluorescent luminaires, offering up to 55% in energy savings. They are offered in two sizes and are ideal for illuminating offices, retail and hospitality areas.

The volumetric design minimizes glare with a lens that extends into the frame, preventing light leaks. SYLVANIA luminaires assure optimum light engine performance for extended service life and rated life (1A: $\geq 100,000$ hours L_{70} , 2A: $\geq 70,000$ hours L_{70}).
