

RX7s Lampholders

Type: 32311

Item number: 100921

Partly enclosed lampholder for discharge lamps with base RX7s

Contact pin: Cu/Silver bulb

Lead: Si-insulation 4.4 mm dia.,
max. 180°C for ignition voltage max.
5 kV

Springs: Stainless steel

Degree of protection: IP 20

Lamp base:	RX7s
Material:	Ceramic
Colour:	Nature
Fixing:	Central fixing hole M4
Connection:	With cable
Lead length [mm]:	200
Lead diameter [mm ²]:	1,00
Conductor material:	Cu tinned
Lead quality:	Silicon-insulation
Lead end:	Ferrule on bare end of core
Lead rating Max.:	180
Insulation colour:	White
Nominal rating:	2/1000
T-Marking:	350
Distance of contacts [mm]:	114,2

Unit: 200 pcs.

The luminaire design must ensure protection from electrical shock as well as sufficient creepage distances and clearances from live parts on the back of the lampholder.

If the central hole on the bracket is used for fixing it has to be ensured by an additional support within the luminaire that the bracket cannot be deformed.
