

Super-thin Electromagnetic Transformers 50W, 120V

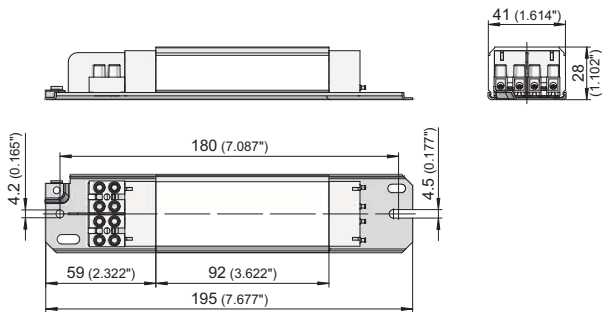

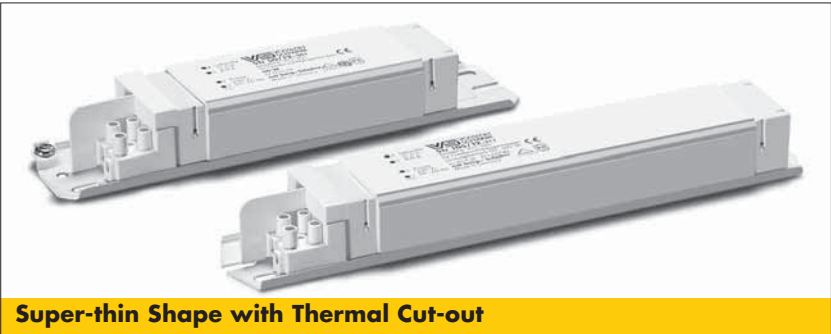

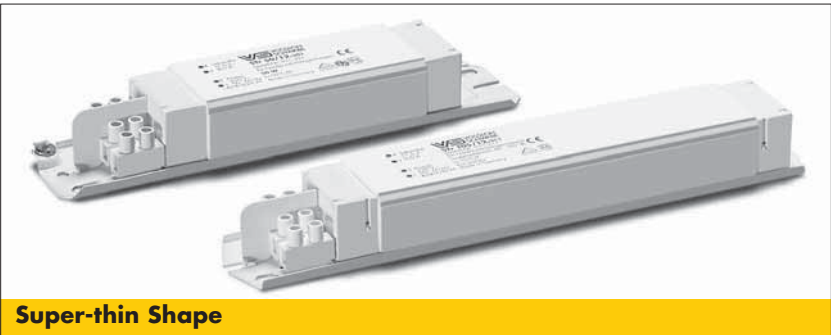

Super-thin Shape: 28x41mm

Electromagnetic safety transformers
for low-voltage halogen incandescent lamps 12V
Vacuum-impregnated with polyester resin
Screw terminals:

24–14AWG (0.5–2.5mm²) solid

For transformers without thermal cut-out,
slow-acting fuses should be installed in the
wiring-on site

For transformers with thermal cut-out,
no primary fuse necessary

Safety transformer									Primary fuse
Type	Ref. No.	Capacity range W	50, 60 Hz V prim./sec.	t _a °C	a mm (inch)	b mm (inch)	c mm (inch)	Weight kg	AT
Without thermal cut-out									
STr 50/12.103	161747	35 – 50	120/11.5 – 60Hz	50/B	195 (7.677")	180 (7.087")	92 (3.622")	0.80	0.500
With thermal cut-out with automatic reset, no primary fuse necessary									
STr 50/12.101	161750	35 – 50	120/11.5	50/B	215 (8.465")	200 (7.874")	110 (4.331")	0.95	—
